

DAILY NEVADA STATE JOURNAL

C. C. POWNING, Editor and Proprietor

BEGUN IN EARNEST.

A Washington correspondent writes that the reduction of the deposits of United States money in National Banks has begun in earnest.

Secretary Windom has mailed letters to the banks having these deposits in which he indicates the amount to which the reductions must be made.

The minimum named for each bank will reduce the \$47,000,000 held by the banks to about \$12,000,000. Secretary Windom intends to reduce to \$50,000 the deposit with banks where it is not necessary for the Government to keep an account and depositories have been made simply for the convenience of collectors of customs, etc. These latter banks are located in cities of from 10,000 to 12,000 inhabitants and generally hold from \$1,000 to \$400,000 each. The policy of the Government has been in making a depository for the convenience of Federal officers to require a deposit of \$50,000 in bonds to secure the deposits.

Many small banks which have been made depositories will have all of their Government deposits taken from them because it is not a necessity to maintain them. In large cities where the Government keeps accounts against which checks are drawn for the payment of pensions and other expenses the balances left with the banks have run up from \$500,000 to \$2,036,000. That is now to be reduced to the amount demanded by public necessities. In some large business centers the Government will withdraw several millions from the general circulating medium of the banks. Many of the banks, in yielding up their deposits, will take out an increase of circulation, so as not to reduce their general funds to a point which will embarrass them. No doubt a majority of the banks would thus increase their circulation were it not for the fact that most of the bonds deposited to secure United States deposits were borrowed.

It is estimated at the Treasury Department that of \$35,000,000 which is to be withdrawn from the depositories not more than two or three million will go back in the way of increase circulation of banks. Secretary Windom says that his plan for the purchase of bonds deposited to secure United States deposits is working so well that there will be no stringency in the money market, and very little if any reduction in the circulating medium of the country. The transfers of these values have, however, caused a slight flurry in banking circles in New York, and western bankers report that their agents in the East are charging 7 per cent. on overdrafts now whereas a few weeks ago but 5 or 6 per cent. was charged, but they report at the same time an equivalent increase of interest allowed for credits with the eastern reserve agents. During the past three or four months there has been a steady increase of the interest charged on the overdrafts of the western banks, and at the Treasury Department it is said that this fact and the customary demands for money at the close of the calendar year is due more than anything else the increase of interest.

The enormous growth of passenger travel across the Atlantic in the last forty years is shown by the increase in steamer service. The San Francisco Chronicle says time was when vessels only ran once a fortnight and the voyage consumed three weeks, but now the various companies in England have made arrangements for a regular daily steamship service between Liverpool and New York. This will force a similar plan on this side, which will be a great improvement on the present method of sending out a half dozen vessels on the same day.

South Dakota people are of the opinion that the President will issue a proclamation throwing open the great Sioux reservation to settlement within the next ten days. They say that both the President and the Secretary of the Interior are thoroughly convinced that it is entirely unnecessary that the question of opening the reservation should again be submitted to Congress.

A Boston baseball player has agreed to play three years for \$10,000 a year, or about twice as much as anybody ever received before for like services. In the light of such figures, contrasting painfully with the income of most lawyers, doctors, ministers and teachers, it would not be strange if college students paid more attention to baseball than they do.

When Nevada mine owners can work as cheaply as they do in Michigan stockholders will get more out of the mines than now. The present manager of the Roper gold mine, of Michigan, is reported to have said that \$1 75 per ton covered the entire cost of mining and breaking, crushing and stamping, including fuel, repairs, etc.

No further south than Charleston, West Va., a prominent lawyer has slapped another leading attorney's face for making a contemptuous remark about the late President of the Southern Confederacy. A duel may follow and one or more deaths result from a miserable wrangle about Jeff Davis. Is the civil war really over?

Since a number of Congressmen have been touched pretty heavily in their own pockets by Silcott, they see that it is very necessary that this country should have an extradition treaty that would return such fellows from Canada.

An extra session of West Virginia's Legislature will be held in January to decide the gubernatorial contest. The majority Contest Committee gives Fleming 214 plurality, the minority Goff 108 plurality.

Senator Plumb, of Kansas, has introduced bills for the erection of public buildings at Salt Lake City and Helena, Mont., to cost \$250,000 each.

THE LOTTERY WINNERS.

A LIVELY SALE OF WINNING SHARES IN THE COLORADO EXCHANGE.

Annual Election of the Mt. Diablo Damages in the Flooded Country.

A \$75,000 Loss.

Special to the Journal.

MARYSVILLE, Cal., Dec. 17.—Rain fell to the amount of forty-nine hundredths this morning in a short time, but the skies soon cleared and have remained so. The Yuba river has dropped to the ten foot mark. Reports from the flooded tale districts are more favorable than at first, and damage to the crops will not be near as great as anticipated. Reclamation District No. 70, will be the greatest sufferer. Parties from there today say that at least five-sixths of the whole district is still under water and that there is no possibility of saving any crops, while the damage to buildings and the loss to stock will almost ruin a majority there. The families of all the farmers have moved out of the district until the water shall go down and leave the ground so it can be driven over. The direct loss in this district is now placed at \$75,000.

The Mt. Diablo M. Co. Special to the Journal.

SAN FRANCISCO, Dec. 17.—At the annual meeting of the stockholders of the Mount Diablo Mill & Mining Company to-day the stock representation was 37,451 shares out of 50,000 shares in the mine. By a unanimous vote the old Board of Directors was re-elected for the ensuing year, and the following officers were elected: President, W. E. Norwood; Vice President, J. M. Shotwell; Secretary, R. W. Heath; Superintendent, W. H. Shockley; Treasurer, Bank of California. The Secretary's statement shows the receipts for the year ending Dec. 12th were \$378,477; disbursements, \$382,451, with unsold bullion on hand valued at \$10,708.

A Lively Sale of Mining Stock. Special to the Journal.

DENVER, Dec. 17.—The most notable event in the history of mining in Colorado and the West, was the sale of Pay Rock stock. On listing that mine on the Board of the Colorado Exchange to-day, the Chamber of Commerce was crowded to suffocation, and when the stock was called the excitement became intense. Before the close of the second call the whole of the Treasury stock, amounting to two million shares, was sold to the most substantial banking and mining men of the State. Sales for the day, 2,180,300.

Where the Tickets Were Sold.

NEW ORLEANS, Dec. 17.—98,455, won the capital prize, sold in New Orleans, New York, Washington, Boston, Chicago, Memphis, South Brooklyn, San Francisco, Oakland, Los Angeles, Elkhart, Ind., Princeton, Ill., Pensacola, Pueblo, San Antonio and Blooming Grove, Texas, Cairo, Ill., Amsterdam, New York, Grand Forks, North Dakota; 40,111, second prize, sold in New Orleans; 35,961, third prize, sold in Oswego, New York; 7,988, fourth prize, sold in New Orleans, New York, Boston, Natchez and San Antonio.

Free Delivery for Reno.

Special to the Journal.

WASHINGTON, Dec. 17.—Senator Mitchell offered a resolution, which was referred to the Postoffice Commission, calling on the Postmaster General for estimates of the increased cost required for the extension of the free delivery system to all towns and cities having not less than 3,000 inhabitants, and where the gross Postoffice revenue is at least \$5,000; also to cities and towns of 5,000 inhabitants, and with a gross Postoffice revenue of \$7,000. Senate adjourned.

All About San Quentin.

Special to the Journal.

SACRAMENTO, Dec. 17.—At a meeting of the State Board of Prison Directors held last night at Folsom a resolution was adopted, ordering three shifts, of eight hours each, at the San Quentin Prison. A resolution was passed instructing the State Controller to transfer from the State Prison Fund to the State Treasury the sum of \$100,000, constituting the surplus earnings of the prison from jute and other products.

Discharged From the Force.

Special to the Journal.

CHICAGO, Dec. 17.—Detectives John Swift and M. K. Crow and Patrolman R. J. McDonald, who testified in favor of Dan Coughlin in the Cronin case, received notice of dismissal to-day from the force, "for conduct unbecoming an officer and for neglect of duty."

Reducing the Surplus.

Special to the Journal.

WASHINGTON, Dec. 17.—In the Senate to-day Hale, from the Committee on Appropriations, reported back a small deficit bill of \$150,000 for public printing and binding, and \$250,000 for preliminary printing of the eleventh census. The bill passed.

Funeral Services.

Special to the Journal.

SAN FRANCISCO, Dec. 17.—Funeral services over the remains of Karl Forzmes, the noted basco singer, took place at St. Boniface German Catholic Church this morning and were largely attended. The remains were interred in Holy Cross cemetery.

Accounts Allowed.

Special to the Journal.

WASHINGTON, Dec. 17.—First Comptroller Matthews has decided to allow the accounts of United States Marshal Needles, of Oklahoma, and United States Commissioners, for duty in that Territory. The accounts amount to about \$15,000.

LONDON'S DISGRACE.

It Will Hasten the Downfall of Royalty in England. Special to the Journal.

LONDON, Dec. 17.—No one not actually in the British Kingdom just now can appreciate the enormous present and probable political effect of the developments in "the West End scandals," as they are called. It is the almost universal expression that they may and probably will result in upsetting not only royalty in the Kingdom, but the rule of the privileged classes as well. In other words, that they will end in bringing about speedily a republic upon the ruins of the present monarchy and the House of Lords.

The fact that Prince Albert Victor, the eldest son of the Prince of Wales, is connected with the scandals, either personally and criminally, as freely charged, or, as officially admitted, by the connection with some of his intimate friends, of course makes their political effect most momentous. It is the opinion of every thoughtful man in the Kingdom that when the scandals are fully inquired into by Parliament and all the frightful details become public property, either Prince Victor will be deprived of the succession—a proceeding almost impossible of conjecture—or that Queen Victoria will be officially declared the last monarch of Great Britain, and that a republic will immediately succeed her death.

That this proceeding will be quite feasible and could be accomplished without disturbing the peace of the country is believed and openly discussed everywhere. The Prince of Wales is quite a sensible man and as closely in sympathy with public sentiment as was Dom Pedro in Brazil, and would be as ready to gracefully bow to the inevitable.

Not only the aristocracy of the peerage are drawn into the filthy whirlpool but the names of the aristocracy of the city. Men whose names are a power in finance and who are constantly to be met in London drawing rooms are drawn into it also. Only the American and some of the continental papers have dared to call by name the titled men who have left their country for their country's sake.

This leads a society paper, published to-day, to observe that the American papers must tread carefully, because, when the degrading facts come out, if they ever do, it will be found that some prominent Americans who have been admitted to the "swell set" in London are also in the mess.

The Overland Flyer Wrecked. Special to the Journal.

PORTLAND, Dec. 17.—The west-bound overland flyer was wrecked near Baker City yesterday. The train was running 25 miles an hour when the accident occurred, which was caused by spreading rails, allowing the engine to upset. The only persons injured were James Watson, an engineer, who had a leg broken, and another engineer named Cronin, who was badly scalded and bruised. J. W. Kitchin, a fireman, was very badly crushed. The wreck caused a delay of about 18 hours. The wounded fireman was brought to his home at La Grande to-day, while engineers Watson and Cronin were taken through to Portland to the hospital.

Brewer's Nomination. Special to the Journal.

WASHINGTON, Dec. 17.—At the executive session of the Senate this afternoon the principal topic of discussion was the nomination of Judge Brewer to be Associate Justice of the Supreme Court. The confirmation of the nomination was opposed by Senators of both parties, on the ground, it is said, there are things to justify the suspicion that Judge Brewer is the friend of corporation interests as against those of the public. It is believed, however, the nomination will be confirmed, probably to-morrow.

The Railroad Trust. Special to the Journal.

CHICAGO, Dec. 17.—The Interstate Commerce Railway Association met to-day to consider the matter of the Union Pacific-Northwestern combination, on complaint of the Rock Island and St. Paul roads. All lines were represented except the St. Louis & San Francisco. The matter was argued warmly, and finally referred to the Chairman for investigation and decision as to whether the agreement has been violated. He is to report to a New York meeting of Presidents in January.

Postoffice Buildings for Small Towns. Special to the Journal.

SAN FRANCISCO, Dec. 17.—An Examiner special from Washington says: "Senator Stanford will soon introduce a bill providing for the erection of a Postoffice in every town, where for three years past the receipts have been \$3,000 or more, buildings to cost from \$15,000 to \$30,000. A building has been designed by Senator Stanford, and is a neat and serviceable structure. The details are now being worked out by the supervising architect, which has delayed introduction."

Recess Nominations. Special to the Journal.

WASHINGTON, Dec. 17.—The President sent a large batch of recess nominations to the Senate to-day among which were the following: William H. Dimond, Superintendent of the Mint at San Francisco; Charles M. Lury, Appraiser at San Francisco; Samuel C. Wright, Superintendent of the Mint at Carson City, Nev.; Lyman E. Knappes, Governor of Alaska.

The New Treaty With England. Special to the Journal.

WASHINGTON, D. C., Dec. 17.—President Harrison to-day transmitted to the Senate the extradition treaty with England, referred to in his message, negotiated by Secretary Blaine and Sir Julian Pauncefote, the British Minister. By its terms the number of extraditable offenses is largely increased. The most important addition is that of embezzlement.

Patti departed a brunette and returned a blonde. She says this isn't the last fair well tour.

PARNELL AGAIN SPEAKS.

THE OROGIN CONVICTS HOPING FOR A NEW TRIAL IN THE NEAR FUTURE.

Senator Teller, of Colorado, Introduces Two Good Bills for Nevada.

Loss of Office Causes a Politician. Special to the Journal.

WHEELING, W. Va., Dec. 17.—Frank Johnson, Superintendent of Mails at the Wheeling Postoffice, was to-day taken to the State institution for the insane at Weston. He had been acting strangely for some time, and recently became unfit to attend to the duties of his office. He had been Superintendent of Mails for twenty years under former Republican administrations, but was supplanted by a Democrat two years ago. When the Republicans came in last Spring, however, he was reinstated. During the interval, however, he had become dependent, and his mind was affected. Johnson was one of the best known politicians in the State, and was very popular.

Parnell on Hand. Special to the Journal.

LONDON, Dec. 17.—Parnell, who is to speak in reply to a speech recently made by Lord Salisbury at a Conservative meeting at Nottingham, arrived there to-day. There was a great crowd at the railway station, and he was greeted with mingled cheers and whistles.

Parnell addressed a large meeting this afternoon. He declared there never had been a movement of such magnitude to the country which was so comparatively free from crime as the Land League movement. The object of the home rule movement was to regenerate Ireland, especially with regard to her industrial condition.

A Splendid Gift. Special to the Journal.

LONDON, Dec. 17.—The colony of Victoria is rather late with its silver wedding presents to the Prince and Princess of Wales. The gifts, which only arrived to-day, consist of two magnificent wine jugs and a wassail cup. The exterior of one of the jugs shows Australia as it was—black fellows in pursuit of game, bounding kangaroos and all the forms of animal life in the bush. The other exhibits Australia as it is—a highly interesting panoramic view of the agricultural, mining and industrial development of the great Southern continent.

The Cronin Convicts. Special to the Journal.

CHICAGO, Dec. 17.—This morning the friends of the Cronin suspects, convicted yesterday, called on them and deplored their fate. Burke alone received no callers. He preserves the same careless demeanor he has exhibited since the trial began. Little Kenz has recovered his spirits. All the prisoners, now that the suspense is over, are looking forward to the possibility of a new trial.

Good Bills. Special to the Journal.

WASHINGTON, Dec. 17.—Senator Teller to-day introduced bills authorizing the citizens of Colorado, Nevada and the Territories to fill and remove timber on the public domain for mining and domestic purposes. Also to grant irrigation companies the right of way through the public land for irrigating purposes.

An Explosion. Special to the Journal.

LOUISVILLE, Dec. 19.—By the explosion of a lamp last night Mrs. Charles K. Telfer was fatally and her three children seriously burned. One of the children will die.

Miners Killed. Special to the Journal.

ISHPEMING, Mich., Dec. 17.—Two men were instantly killed in the Cleveland mine this morning by the unexpected explosion of a blast.

Both Killed. Special to the Journal.

DANVILLE, Ill., Dec. 17.—D. C. Potter and Jas. D. Gett were killed this morning by falling slate, in the Kelly mine, at Grape creek.

Up in Smoke. Special to the Journal.

TRINIDAD, Col., Dec. 17.—The United States livery stable, with 40 horses, burned this morning. Loss, \$30,000.

A Bark Wrecked. Special to the Journal.

LONDON, Dec. 17.—The bark, Tenby Card, has been wrecked at Holyhead. Seven persons were drowned.

Recess Nominations. Special to the Journal.

WASHINGTON, Dec. 17.—The President sent a large batch of recess nominations to the Senate to-day among which were the following: William H. Dimond, Superintendent of the Mint at San Francisco; Charles M. Lury, Appraiser at San Francisco; Samuel C. Wright, Superintendent of the Mint at Carson City, Nev.; Lyman E. Knappes, Governor of Alaska.

The New Treaty With England. Special to the Journal.

WASHINGTON, D. C., Dec. 17.—President Harrison to-day transmitted to the Senate the extradition treaty with England, referred to in his message, negotiated by Secretary Blaine and Sir Julian Pauncefote, the British Minister. By its terms the number of extraditable offenses is largely increased. The most important addition is that of embezzlement.

Patti departed a brunette and returned a blonde. She says this isn't the last fair well tour.

DAILY NEVADA STATE JOURNAL

PRICE OF DAILY JOURNAL,
12 CENTS PER WEEK.

The "Weekly Journal."
On and after January 1, 1890, the price of the WEEKLY JOURNAL will only be \$2 per year, making it the best and cheapest weekly paper in the State.

REVIEWS.

Geo. Stiles went below last night.
Andrew Fraussen went below last night.
This cold weather will stiffen up the best market.

Exchequer has been assessed 25 cents per share.

Take up the shovel and the hoe and cause the mud to go.

Twenty-eight carloads of mutton were shipped to the Bay yesterday.

Have a bird's-eye view sent to some friend, and let them see how Reno looks.

Uncle Geo. Shaffer, of Truckee, was in Reno yesterday, but returned home last night.

Geo. A. Knight, of San Francisco, was a passenger for Washington on yesterday morning's train.

Mrs. E. W. Parry, and little Gladys, departed for the Bay last evening to visit friends for a few days.

James G. Rule, the well-known Comstock mining man, returned to Virginia yesterday morning from a trip to Portland, Or.

Adah Chapter, No. 4, Order of Eastern Star, will hold its regular monthly meeting this evening at 7 o'clock sharp. Members should govern themselves accordingly.

THE TUCUCAR MINES.

Reports from the Elko county mines, Tucucara District, show work progressing in eight. The two cross cuts in the Belle Isle were extended 6 and 18 feet respectively last week. There were 435 tons of ore worked from the Commonwealth, averaging \$19.82. One of the crosscuts at the Del Monte has gone into good ore. A vein from the 400 foot level in the Grand Prize shows a good sized vein of concentrating ore. Slopes on the 150 foot level in the Navajo are looking well. The south drift from the joint cross cut in the Nevada Queen improves as the work progresses. The crescent from the 300 foot level and the slopes near the Queen line in the North Belle Isle are looking fair. Some of the ore on the 225 foot level in the North Commonwealth assays \$397 per ton.

HOLIDAY SPECIALTIES.

The holiday specialties exhibited by S. Emrich, of the Nevada Cash Dry Goods and Carpet Store are quite attractive. He has made immense reductions on ladies' dresses and children's cloaks, jackets and sealettes. They are within the reach of everybody, and most suitable for a holiday gift. He also requests an inspection of his specialties in handkerchiefs, mufflers and other suitable articles for holiday presents. Do not delay, as his assortment is yet complete.

THE CHRISTMAS BALL.

The next social event will be the ball given by the Improved Order of Red Men in the Pavilion on Christmas night. This will be the first party given by this order, and bids fair to be a grand success, both socially and financially. The music will be excellent, and the members of Minnehaha Tribe are exerting themselves to make it pleasant for all who attend. Tickets, admitting gentleman and ladies, will be \$1.50.

Grand Council I. O. O. F. M.

A special session of the Grand Council of Nevada, Improved Order of Red Men, is called by the Grand Sachem of Tribes in the State to convene at Virginia on the 20th sun of Hunting Moon for the transaction of special business. Members of local tribes can figure out for themselves what date the above is according to the reckoning of palefaces.

Diamonds Watches and Jewelry for Holiday Presents.

I. Fredrick, who occupies the old stand, has just returned from San Francisco, with a complete stock of diamonds, watches, jewelry, silverware, clocks, optical goods, etc. All goods are of the latest design and very suitable for Christmas presents. Every article is warranted as represented. Country orders will receive prompt attention.

No Snow Up the River.

The annex-d is taken from the Winnemucca Silver State:
Railroad men say there is no snow along the Humboldt from Brownsville east to Humboldt Wells, though the valley in this vicinity is covered at least two inches deep with snow. This is an unusual circumstance, as it is generally several degrees colder from Brownsville to Wells than it is in Winnemucca. There had been snow up the river, but rains melted it.

Ex-Congressman Woodburn when in Carson a few days since stated that it has been definitely settled that Frank Newlands would be a candidate against Jones for the United States Senatorship. Whew, won't the fur fly—Carson Tribune.

A Gazette reporter saw Mr. Woodburn in Carson last night and asked him about the truth of the above, and his reply was: "I know nothing of it. I never spoke to Mr. Newlands in my life."—Gazette.

Mr. Newlands has no intention of being a candidate.

The Times-Review rejoices as follows:

The Almighty is good to the people of Nevada. He is giving us plenty of rain and snow to insure good crops, plenty of cattle feed and an abundance of water for milling and all other purposes. If Congress now will second the Lord's work, and give us free coinage we will be blessed indeed.

State Printer Joe Harlow was taken sick on Saturday, being threatened with pneumonia. Dr. Lee was summoned at once, and succeeded in curing the dreaded disease.—Carson Tribune.

Go to Lange & Schmitt's for ranges, and cook stoves. Best assortment in the State.

OUR INTO FRIENDS.

At Heart They Are Good Nevadans.

The people of Owens Valley are fast becoming ripe for secession from California. The leading papers, the Index and Independent, are squarely out for being put where they naturally belong—within the domain of Nevada. The Chronicle Union, of Bridgeport, makes a feeble and plaintive plea of remaining in California. It suggests that the Carson & Colorado railroad and District Fair Pavilion were built with California money. To this the Inyo Inquirer makes the following crushing rejoinder:

"The Carson & Colorado railroad is, to all intents and purposes, a Nevada corporation. It is managed and largely controlled by Nevada men, and a misfortune to this section that it is not wholly owned by residents of that State.

"As to the 'District Fair Pavilion and grounds,' they were not built or paid for by the State of California, nor were the appropriations made for any such purpose. Nevada is equally as liberal as California in her appropriations to Agricultural Fair Associations.

"These two items—railroad and Fair—the Chronicle-Union would have the world believe are 'all California improvements made in Inyo county.' Did our Mono neighbor never hear of the Inyo Development company? It has expended upward of \$100,000 in the erection of buildings, water, machinery, etc., at the Owens Lake Soda Works. It is a Nevada corporation, owned and controlled by Nevada men. Ever hear of the Inyo Canal company? It will soon complete an immense irrigating canal thirty-one miles in length, which will reclaim more than 30,000 acres of desert land. It is a Nevada corporation, owned and controlled by Nevada men. Ever hear of the Union Mining company? It recently paid \$50,000 for some mines at Cerro Gordo, and will spend other thousands in their development. It is a Nevada corporation, owned and controlled by Nevada men. Know anything of the Hillside company? It has engaged to transform thousands of acres of barren hills above Bishop into fruitful orchards and vineyards. It is a Nevada corporation, owned and controlled by Nevada men. We deem it unnecessary to extend the list.

THE RAINBOW.

The Cantata and Literary Entertainment for the Public School Library.

The following programme has been arranged for the benefit of the Public School Library to-night:

Music..... Orchestra

Part I.

Deed—Greeting Song..... Chorus by the Class.

Piano Solo..... Frank Young Recitation—Toussaint L'Overture..... A. D. Gould

Chorus—Sleigh Riding..... B. L. Little Vocal Solo..... Emma LaForge

Recitation—Christmas Angels..... Allie Simpson

Chorus—Dust..... Class Song with piano accompaniment..... Sam Doten

Vocal Solo..... Eighteen Young Ladies Vocal Solo..... Grace Maxwell

Recitation—The Soldier's Tramp..... H. E. Stewart

Chorus—Sleighing Song..... Class Music..... Orchestra

Part II.

Cantata, "The Rainbow".....

DRAMATIS PERSONE:

Mother—Light..... Maggie Hymers Sisters:

Red..... Kate Moore Yellow..... Lottie Gladding Blue..... B. L. Little Orange..... Florence Abraham Green..... Mamie Bell Indigo..... Belle Rolison Violet..... Maude Wheeler

STORY:

The primary colors are red, yellow and blue; orange, green, indigo and violet are produced by combinations of these.

In the Cantata, Light is represented as "Mother" of the seven sisters—the colored rays—because when passed through a prism of glass or drops of water, it is resolved into these seven colors. Light is represented as dwelling originally in heaven, but the scene is the earth, where the mother and the seven sisters meet.

Notter.

On and after July 19, 1889, George Becker, proprietor of the Reno Soda and Bottling works, will fill and deliver in Reno:

Soda, cream and lemon, per doz. \$ 50

Sarsaparilla, per doz. \$ 50

Ginger ale, per doz. \$ 50

Sarsaparilla and Iron, per doz. \$ 75

Pacific bottled beer, per case \$ 50

Fredrickburg San Jose beer, per case \$ 50

Go to the Opera house to-night.

PROSPECTIVE UNION PACIFIC EXPENDITURES.

G. M. Dodge, a Director of the Union Pacific, has announced that orders have been issued for the expenditure of \$1,000,000 for construction on the Union Pacific road. Work will commence at once on the extension of the Cheyenne & Northern which will be pushed to a junction with the Fremont, Elkhorn & Missouri Valley. General Dodge stated that through trains will be run from Sioux City to Denver by way of the Elkhorn on the Union Pacific and also through trains from Deadwood to Cheyenne and Denver by way of the Elkhorn and the Cheyenne & Northern.

Alexander Welsh, of New York, an expert electrician, and one of Mr. Edison's assistants, recently said:

"Whenever you see the big white electric lights, with its carbons burning, you may know that death lurks overhead. Nearly every wire you see in the open air is thick enough and strong enough to carry a death-dealing current. As things are at present there is no safety, and danger lurks all around us. It may never reach you, or you may go on for years unharmed, but when the moment comes you are killed instantly. The further maintenance of the overhead wires in their present condition is a menace to the life. It is dangerous to touch a wire of any kind or even a metal lamppost. A man ringing a door bell or leaning up against a lamp post, might be struck dead at any instant. It is not alone the electric wires that may kill you. Somewhere off in another street, perhaps miles away, the wind has blown an air light wire across some conductor, and the danger begins."

At the last meeting of the Senate Committee on Indian Affairs the nomination of Indian Commissioner Morgan and Superintendent of Indian Schools Dorchester, were laid over to the next meeting of the Committee. It is not probable that action will be taken on these nominations before January. The Church of Rome has objected to both of these nominations, although its objection has not been formally laid before the Committee. It is charged that their policy is in opposition to the Catholic Church and Catholic institutions; that out of twenty six Catholic Superintendents of Schools twenty have been by them discharged, and that if their policies are continued they will lose to the Catholic school more than \$1,500,000 invested under contracts for schools. The Grand Army of the Republic has also objected to Morgan's confirmation on account of his military record.

Few good wives, says the New York Sun, will object to their husbands going to the Audubon Club, of Detroit. Whoever speaks in that club must bring his own cigar to the club house, and whoever wants a drink there must have it brought along with him—a dreadful condition that has not yet been known to the club. The aim of the club has been to provide rooms for reading and card playing, but no playing for money is permitted, and at 10 o'clock every night the club rooms are closed.

The Washington Court House Register says that "Edward Zinn made a misstep in his father's sawmill and fell upon a circular saw. His right leg was sawed off near the hip. He also had his right arm sawed off at the shoulder." One would naturally believe that a man whose right leg had just been amputated by a circular saw would be content to let matters rest, but this young man evidently did not know when he had enough and deliberately had his arm sawed off also.

John L. Sullivan expresses surprise that Kilrain was found guilty only for assault and battery, while he, Sullivan, is indicted for prize-fighting. He says, concerning the meeting with Jackson in California, that he will not make any arrangements until he is out of trouble in Mississippi. He denies having received an offer from any California club for a go with Jackson, but reiterates that he will fight Jackson, but it will have to be for big money, for over \$10,000.

A Japanese paper reports a battle of batteries which took place on the 20th and 21st of August near Nijima. It took place above a narrow road and was witnessed by many of the villagers. The fight was finished before noon on the 21st, and the adjoining fields were covered by the bodies of the slain.

Queen Victoria is breaking down rapidly. She is lame from rheumatism and her mind is not as bright as it was. Since she learned that the Prince of Wales has an incurable disease she has failed rapidly. Prince Albert Victor's escapade has also injured her health.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents per bottle.

WHAT AN EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John Jones or cheap nostrum parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at all prices? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as Hood's Sarsaparilla. And Hood's Sarsaparilla and every bottle that does not do it is a waste of money.

OSBURN & SHOEMAKER, Druggists.

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt. Every house and store should have them. Call and inspect before purchasing.

THE RAINBOW CHASER.

A Cincinnati dispatch, of the 16th, reads as follows:

"Calvin S. Brice will be the successor of Senator Payne just as sure as the Legislature meets," said a member of the Hamilton county delegation to-day. "No other man has a ghost of a chance." This is significant because the Legislature has been supposed to be pretty solid for a local candidate, whose reputation has been largely increased by his brilliant conduct of the defense in the Metropolitan bank case, now on trial in the United States District Court. The same man says he has personal knowledge that three-fourths of the Democratic members of the House is already pledged to Brice.

An Ohio paper, of late date, pleasantly refers to Mr. Brice, by saying:

"While our fellow townsman, C. S. Brice, is quietly getting in his work and making himself solid in the right spots the friends of the other candidates are going about telling what a bad man Brice is; how he wrecked a road; how he tried to beat this country out of taxes, and many other charges that Republicans would not be guilty of making. This most amusing thing we have yet read in this connection is an interview a correspondent of the Cleveland Leader had with a Springfield Democrat, who, however, the blow to the Democratic charges Brice with being a hood-lar, and claims that Brice is hardly in the race. Regarding the situation Mr. Abell said:

"The contest lies between Mr. Thomas and McMahon of Dayton. Why, his 30 cents per day for an instant and Cal Brice will gain the race. The Democrats of Ohio don't dare elect him. It would be punitive of lasting disgrace and the party would be stigmatized as the tool of a monopolist and as being molded by the use of hood-lars. I repeat, they dare not do it. Mr. Thomas, I think, is the best. He is a pioneer tariff reformer, and his record is spotless. He and McMahon are the best of friends, and one or the other, before the decisive day comes, will get the strength of the other. If Cal Brice should be elected (such a thing is impossible, however), the blow to the Democratic party would be felt for years."

Allen O. Myers is talking, too. In his lecture at Kent Monday night he said that it was his mission to cross the people to the great danger that is threatening our institutions in the increasing corruption and money in politics. He said that the first time he was ever offered money for his influence was during the National Democratic Convention in Cincinnati, in 1880, when W. W. Armstrong, of the Cleveland Plain Dealer, offered him \$5,000 to aid in the nomination of Governor for 1884. He said that he refused the offer, and that he had done more to disgrace the Democratic party in Ohio than any other man who ever took part in politics, and that Calvin Brice, who doesn't vote in Ohio, and who has paid for his here for six years, wants Payne's seat. He said Brice was the only man who ever stole a railroad outright, and that his only claim upon his party was that he had contributed to its campaign fund.

An Ancient Dwelling Uncovered.

Special to the Journal.

ROME, Dec. 17.—There has just been discovered northwest of Milan, through the draining of a large turf moor, a lake dwelling which differs in many respects from that recently found in Switzerland. This relic of civilization was met with under the peat bog and the underlying layer of mud, the former being a metre in thickness and the latter thirty-five centimetres. The building was rectangular, eighty metres long and thirty metres broad. Among the articles found were polished stone hatchets, a few arrow heads, flint knives with the action of fire. Traces of animals are entirely wanting, and the inhabitants seem to have lived exclusively on a vegetable diet. There is no evidence to show that the inhabitants had any intercourse with the natives of other parts of Upper Italy.

A Young Lady on Trial for Murder.

Special to the Journal.

MARSHALLTOWN, Dec. 17.—An interesting murder trial has been commenced at Mountzema, Poweshiek county, the defendant being a young lady named Miss Flora Look. A while ago her grandfather, aged about 80 years, was married and was soon afterward visited by a charivari party, who handled him pretty roughly. Miss Look grabbed up a gun and fired into the crowd, killing one man. Her chances for acquittal are good, as in a recent ruling by the Supreme Court in a case almost identical with this, one of the Judges declared the charivari to be relic of barbarism and a sufficient provocation. Miss Look is assisting the attorneys, and does not appear at all embarrassed.

A Quorum of Millionaires.

Mr. Brice, of New York, the leading candidate of the Democracy for the Senate of the United States, is supposed to be a "habitant" in his private car. While a millionaire's private car is, there is no doubt for the Senate. There are a few more millionaires wanted in the Senate. This is not quite a guess. When there is a quorum of millionaires in the Senate, and the Senate organizes the house and builds the President, we shall of course have a free country. It will be a big thing, too.—Cincinnati Commercial.

A Saving String.

It is surely not forgotten that Col. Bob Ingersoll once said: "In the dark night of death hope sees a star and listening love may catch the rustling of a wing." His last utterances, upon which excited correspondents base the statement that he is becoming a convert to Christianity, are no stranger in that direction than the words we have quoted. There has always been a string tied to the Colonel's atheism.—Chicago Tribune.

The oceans of tears and ink shed by the South over the bir of Jeff Davis will not wash away the memory of the three hundred thousand brave men of the North whose lives were sacrificed through the treachery of Davis and his followers.

While the North has drawn the mantle of charity over the misdeeds of the nation's enemies, no amount of Confederate eulogy can shake the imperishable truth that Davis conspired to destroy the grandest republic on earth.—Omaha Bee.

A PROGRESSIVE RAILROAD.—The Northern Pacific continues a phenomenal showing for the profits of October were more than \$100,000 a day greater than for the last year, and for the calendar year the profits are more than \$2,000,000 already in excess of those for 1888. In four months of the year the profits have averaged over \$1,000,000 a month and \$1,200,000 net.

NEW MEN WANTED.

The San Francisco Call says:

A friend wishes to know whom he had in view when he published the following paragraph:

"The Call is of the opinion that the Republicans should take up some young Californian—a native of the State—for our next Governor."

In answer to the above inquiry we will say that we are not wedded to any particular candidate. There are numbers of persons in every way qualified to fill the position of Governor who are Californians, not only by birth, but in feeling also. We are for trying new blood in managing the affairs of the State, and we should like to see the experiment carried still further.

Why not replace the official blood-suckers who are now in office, by young Californians? Who would not, for instance, rather see the positions of the Board of Supervisors which are now filled by Buckeye's soulwags, occupied by young men who have grown up in the State, and have a pride in its future? Most of our officials at present are men who live by politics. It is a profession with them, and they will, as we have seen, serve any interest which will assist them to a nomination, no matter whether it be a boss or a corporation. By all means give the young men a chance.

In China barbers get \$4 per month; blacksmiths, \$5; bricklayers, \$4; cabinet-makers, carpenters and carvers, 22 to 30 cents per day; fitters on cotton spinners, 30 cents per day; dressers get \$8 per month; chair-bearers get 30 cents a day (for carrying their "summer-cars"); painters, 21; plumbers, 24; putters, 24; sailors, \$4 to \$8 per month; salaried get \$4 per month; clerks, \$3, with board.

The Con. Virginia.

The News Letter, of San Francisco, thinks the outlook is favorable that the Con. Cal. & Va. Company will declare at least six 50-cent dividends in 1890. An investment in shares in that company at the present quoted price will, therefore, pay an interest of nearly 13 per cent. per month. At that rate of interest an income of \$3,000 for the year can be realized by investing the sum of \$4,200 in the purchase of a block of 1,100 shares—equal to a return in twelve months of three-fourths of the capital invested—with a highly favorable prospect that the stock may appreciate in value five times above the present quoted price before the close of the next year.

The Mayor of Salt Lake Arrested.

Special to the Journal.

SALT LAKE, Dec. 17.—The recent investigation of the Grand Jury in the alleged frauds in the disbursing of funds and making of contracts by the city and county officials is resulting in a large number of arrests. Mayor Armstrong was arrested last night, there being nine indictments against him. To-day ten others were presented.

NEW TO-DAY.

HOOD'S COMPOUND EXTRACT OF SASSAPARILLA

THE IMPORTANCE OF PURIFYING THE BLOOD cannot be overestimated, for without pure blood you cannot enjoy good health.

At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to try Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. I. Hood & Co., Lowell, Mass.

100 Doses One Dollar

When baby was sick, We gave her Castoria.

When she was a Child, She cried for Castoria.

When she became Miss, She clung to Castoria.

When she had Children, She gave them Castoria.
